DR. J. COLLIS BROWNE'S CHLORODYNE. Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr J. See the TIMES, July 13th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne. See LANCET, Dec. 31, 1864.

American Finances.

Yesterday we gave an article from the New York *Times* upon the state of American finance. To-day we produce an extract from a speech made by that eccentric Yankee, George Francis Train, before the Board of Brokers in New York city recently. Mr Train, it will be remembered by our English readers, was the originator of street railways in London, where he met—to the discredit of the slow-coach London municipality, be it said—with no favor, and ultimately abandoned the enterprise. Mr Train is a shrewd, calculating, wideawake man, who has been in active business since a boy, and has travelled over nearly the whole civilized world. His opinion is therefore entitled to weight, and is well worth reading by those here who are in the habit of lauding American financiers to the skies and foolishly imagining that all the wisdom and ability left in the world has settled down within the borders of the Republic. The Americans *are* a great people. Their enterprise and growth are truly wonderful; but their public men are no nearer perfection than the public men of other countries, and their plans are just as likely to "gang aglee." There is another fact connected with American finances to which, perhaps, we ought to allude: We observe that a member of Congress has introduced a bill to tax Government bonds. Now, when those bonds were issued, it was clearly guaranteed that they were *never* to be taxed, and to apply the screw when all have been issued, is acting in very bad faith with the holders, and will cause a decline in their value, especially in Europe. After reviewing the financial condition of the United States from 1861 to the present time, Mr Train says:

"Then comes the rush on National banks for greenbacks, and the greenbacks are not there. (Sensation.) What is the result? Does Congress help us? No—the lawyers are in power, what do they care? They add $400,000 000 bounty to the debt, and advance their own salaries to $5000! Is the South to be admitted under the Military Bill? No; Stevens holds the reins. Where, then, are we floating? Congress sees McCulloch has made a mistake; and as it is an administration blunder, the Jacobins intend to pass no bill of relief. They will pinch the country this year and bring on a financial crash in the fall—(remember this is the panic year of the never-failing sevens)—lay it on the Administration policy, and when everybody is broken, Congress will meet in the winter and pass Randall's bill, putting greenbacks in the place of the $300,000,000 National bank bills. Pass another bill paying duties on imports in greenbacks, and then another bill paying interest on the $1,400,000,000 five-twenties in legal tenders. In other words, give the country one currency—that is, twenty-five hundred millions of legal tenders, instead of sixteen currencies as at present (applause). This makes all happy for the Presidential elections of 1868. *Delirium tremens* requires National whiskey to recuperate the system. The next war is to be financial. Land and labor against banks and bondholders—and the former owns the notes. The South had no debt. The West little. The greenback age wiped off their mortgages, and placed the load on the back of the bondholders. The debt rests uneasily on the seashore and in Europe, and the shadow is on the wall.

Paying gold interest in greenbacks is repudiation you say. Why so? nearly all the States have done it, New York taking the lead. The finality of all the recent Congressional legislation may be stated in two words. *Confiscation* and *Repudiation*. (Sensation.) The Chicago papers have already sounded the tocsin; we are growing poorer every day. The $2,500,000 000 debt only cost $1,250,000,000.—But bondholders ask specie payments.—The people who did the fighting hold no bonds, and ask for legal tenders. The rich arranged to have their bonds free from taxation. Hence the rich man with his millions of untaxed Governments, sends his children to the same school where the poor man, with no bonds, sends his.—Hence the poor man is obliged to pay for the education of the rich man's children as well as for his own. (Sensation.) But enough of this. You asked me for a speech, and you have got it. You have been dancing five years and the fiddler demands his pay. When the candle is lighted at both ends you had better sell it short.

The Coast Survey to Lease.

MESSRS EDITORS:—Another instance of Government incapacity and blundering has lately been brought to light. Before Capt. Richards left this country for England he recommended to the Admiralty that the Survey of the Coast of British Columbia should be continued; which was acceded to on condition that £500 per annum, one-half of the amount paid to the Hudson Bay Company for the hire of the "Beaver," should be borne by the Colony, which has hitherto been done, and this most necessary work proceeded with, under the management of Mr Pender; but now we are told that the Government either cannot or will not longer continue this payment, as no provision has been made in the estimates of the present year to meet this demand; it would have added but little to the enormous amount of taxation forced on the people of the Colony by the Government, which, unfortunately for us, have made many worse investments, as the surveying party spend annually amongst us a sum exceeding £4000, no bad return for £500. One of the first acts the Admiral is compelled to do on his arrival here is to give notice to the owners of the "Beaver" that the charter of that vessel must cease in December next, unless the Government fulfil their engagement to the Admiralty. Let us hope that since our Colonial Secretary has left the country the Governor may have wiser advisers about him, and that this error may yet be rectified in time to prevent so necessary a service being abandoned. And let us also hope that Governor Seymour has learned a lesson not soon to be forgotten. He may compel his officials to vote any amount he pleases, but he cannot extract $700,000 from the pockets of an impoverished people so easily as he supposed. It is to be hoped, when the estimates of the coming year are under consideration, His Excellency will not be again deaf to the remonstrance of the members of the Legislative Council, who so strongly urged retrenchment. Had their remonstrance been attended to, there would now be no difficulty in providing so small a sum as £500 for so desirable a purpose as the continuance of the coast survey.

DELAYED DISPATCHES.

Eastern States.

NEW YORK, July 15—In the Surratt trial, the defence said he would prove that Surratt was in Canada from April 8th, 1865, to Sept. 10th. He offered the testimony of the rebel General Eglee, to show that Surratt went to Canada, April 13th, on a secret mission for the Confederate service, not connected with the conspiracy, but with a view to ascertain the condition of Confederate prisoners confined at Elmira, and make a report of the prison, station guard, &c., and obtain information regarding the number of troops. Surratt returned from Montreal April 17th with the reports as directed. Same evidence was to prove that Surratt left Richmond March 31s, charged with despatches, with Benjamin, Secretary of War, for witness. General Eglee reached Montreal April 6th, where he remained till April 12th, when he left for Elmira as before stated. It is also proposed to show that he did not receive money from Jacob Thompson. The witness was placed upon the stand and testified substantially as stated. Several others were examined but nothing important was elicited. The court then adjourned.

CHICAGO, July 11.—There are reports in this city that the workmen on the Great Eastern Railroad at Logansport are on a strike in consequence of not being paid for upwards of six months. Having exhausted all means to procure the necessaries of life, the shopkeepers refuse to credit them. The passenger train is stopped at Logansport. Only the mail car is allowed to proceed. The Sheriff read the riot act, but with no effect upon the rioters. The threaten to stop all trains till the Company settles. The night express train on the Rock Island road was thrown from the track yesterday. Several persons were killed.

FORTRESS MONROE, July 12.—Several bloodthirsty attempts at murder and robbery are reported in the vicinity of Norfolk and Portsmouth by negro highwaymen.

SAVANNAH, July 12.—1,400 whites are registered, and 2,000 blacks.

RICHMOND, July 10.—Last night at Petersburg 200 negroes surrounded the cars and rescued from the Sheriff a negro convicted of felony, who was being taken to the Penitentiary.

The French tobacco seized as captured property, for which the Rothschilds are suing, has been sold by the U. S. Treasury Department—the money to be held until the case is decided. There were 319 hogsheads of the tobacco.

More whites are now being registered in proportion than blacks; but out of 11,534 persons registered, only 3,742 are whites, and these figures will not be materially altered.

CHICAGO, July 13.—The disaster on the Chicago and Alton railroad was more severe than at first appeared. Both engines were demolished, the brakeman and baggageman killed, a passenger was burned to death, and forty others were injured. The express, baggage and three passenger cars were burned, with express matter, including some $30,000 in greenbacks, also freight. The train was in charge of inexperienced persons, who mistook the place of meeting and failed to stop when they should.

The *Times'* special dispatch says the Reconstruction Bill is in the hands of the Committee of Conference, and will probably be reported to-day and passed. The same paper says, among the papers sent to the House is a voluminous correspondence between Grant and Sheridan, including a despatch denying that Grant and the Secretary of War favored reprimanding Sheridan for removing Gov. Welles; also embracing instructions to military commanders to hold troops in readiness to suppress riots and breaches of the peace, especially in the cities. Grant says the opinion of the Attorney General was not circulated in the form of an order, as he did not suppose the President intended that it should have that force. He directs commanders to enforce their own construction of the Military Bill unless otherwise ordered.

NEW YORK, July 12—The *Tribune* says within a few days an expedition will be organised to fillibuster Mexico; 200 names were enrolled at the last meeting held at the Metropolitan. Similar organizations are going on at Havana and New Orleans. The movement is believed to be instigated by the Church party.

J. M. Jessup, of Staten Island, has been arrested, charged with poisoning ten farm hands and an aged lady, all of whom are dead.

The surviving officers of the Irish Brigade have resolved to wear the usual mourning badge out of respect to the character of the late Gen. Meagher.

The *Intelligencer* denies the statement of the Mexican Legation that Santa Anna was seized on Mexican soil.

Senator Cole has arrived.

The Lower California Company is organisen under a New York charter. William G. Fargo is President; William R. Travers, Treasurer; and George Wilkes, Secretary, Commodore Gainson, Auguste Belmont and others Directors. John A. Logan has accepted the position of Governor of the Company.

A Superintendent of Colonization will soon proceed to Lower California.

NEW YORK, July 12—The agent of Santa Anna is in close communication with several Senators, and it is understood that Reverdy Johnson is urging the case of the abduction of Santa Anna on the attention of the State Department.

It has transpired that a majority of the commission which tried the assassination conspirators recommended that Mrs Surratt's sentence should be commuted. The paper has never been seen by the President, who only heard of it recently through the newspapers.

A Washington special says the Navy Department has ordered the frigate Susquehannah to proceed immediately to the Mexican port of Sisla and demand the surrender of Santa Anna, dead or alive, and also satisfaction for the alleged outrage on the American flag.

The receipts of customs for the year 1865 were $136,759,161; for 1866, $81,467,631.

The Secretary of War communicated a mass of papers relative to the enforcement of the Reconstruction Act, in which is a letter from Grant to Ord, expressing the opinion that a Board of Registry ought not to register any man when he takes the required oath, when they know that he commits perjury.

Grant thinks they should not allow unauthorized persons to register, and should examine witnesses, under oath, in relation to the qualifications of applicants. The law, however, makes District Commanders their own interpreters of their powers and duties; and neither Grant nor the Attorney General can do more than give their own opinions. They cannot enforce their views against the judgment of those who are made repsonsible for the faithful execution of the law.

Canada.

QUEBEC, July 10.—The officers of the British gunboat Aurora ordered the commander of the American steamer Haze to take down his flag, when a slight altercation ensued.

MONTREAL, July 12—The American propeller Haze, which refused to salute the British steamer at Quebec, arrived here and declined to salute the Wolverine. She is detained to await the permission of the executive to proceed on her destination. Commander Howard went aboard the Haze.

QUEBEC, July 12—Cauchon failed to form a government for the province of Quebec. Chevan has been assigned the task.

Mexico.

CHICAGO, July 10—A Matamoras paper says that Maximilian offered a million dollars to Gen. Ribodaneva, after hearing his sentence, to be allowed to escape.

The Brownsville (Texas) *Ranchero* of the 4th inst, published the proceedings of the Court-martial which tried Maximilian. He was confined to his bed when his case was called, but was ably defended by Eubilo Artega, who refuted the charges of usurpation and cruelty brought against him. He said the law of October 3d, 1865, was passed when Maximilian was cheated into the belief that Juarez had abandoned the territory; one of the articles of that law was dictated by the French commander. The law was only intended as a terror, and there had never been a petition for pardon that was not granted. Vasqueza said he was not uneasy about a coalition in Europe or the attitude of the United States, but feared that universal reproach would fall on the country as an anathema.

NEW ORLEANS, July 11—The Mexican Consul says that Juarez and cabinet left for the capital on the 1st of July, and that he would be received there with great pomp as the deliverer of his country and the defender of the Republic.

Emile Lazeere, once agent for Maximilian, and of the Tehuantcepec Railroad notoriety, was one of the bearers of the dispatches so often alluded to. It is understood that he is still in the interest of the railroad scheme and representing Marshal O. Roberts, of New York.

The Imperial officers recently landed at Mobile have arrived in this city, and will be furnished transportation to New York, or, if they desire, to Havana.

A letter says Santa Anna, while still a prisoner, refused food for three days, and was continually making inquiries if he was going to be shot. He asked for a confessor.

NEW YORK, July 11—The *Herald's* Vera Cruz correspondence says a general sack of the city by foreign troops before the evacuation was only prevented by the exertions of the American and British Ministers and residents.

NEW YORK, July 14—The New York *Herald's* City of Mexico letter of June 27th says: The difficulty in regard to the French Minister Dano has been adjusted. He leaves soon for Vera Cruz; also such French and Austrians as desire to return to Europe. The Brazilian Minister offered on the part of his Government some of them positions in the Imperial Army of Brazil. A number accepted, and vessels were chartered to convey the party to Rio Janeiro.

Europe.

Mr Schoffield, M P., died to-day:

Dispatches from Madrid announce that Gen Prim, the noted revolutionist, who had been some time in exile has landed in the province of Catalonia. Nothing is definitely known as to his destination, but fears are entertained that his sudden appearance is the forerunner of an insurrection in that province.

The *Herald's* China letter says a British man-of-war was dispatched to a Rolew Islands. Her officers beheaded a native king, for killing the captain of an English ship trading in his territory.

Central America.

Panama correspondence says Costa was formally inaugurated President of Columbia, and a Cabinet was formed.

Mosquera's gunboat Columbia has withdrawn from the blockade of Santa Martha. She captured the schooner Joseph Stilson, sailing under British colors. She had arms aboard. The Columbia took her as a legal prize.

The cholera has again appeared in Nicaragua.

California.

SAN FRANCISCO, June 12—In the Fifteenth District Court this morning, the jury in the suit of Martha Rounds vs. the Central American Transit Co., rendered a verdict in favor of the plaintiff, awarding her $820 for the loss of her baggage, and $2000 for personal suffering. Action was brought to recover $5000 damages, alleged to have been sustained by plaintiff from being shipwrecked on the steamship Golden Rule.

The California, Oregon and Mexican S. S. Co. have discharged the ship carpenters, painters and caulkers employed on the steamship Orizaba, under the eight hour system, but giving them the privilege of returning to work at 9 hours, if they desired.

Detective Johnson to-day arrested a man named Williams for forging a $1000 U. S. bond, which he sold to Wells, Fargo & Co some months since. The prisoner denies his identity and says his name is McGrath, but it is said that there is no doubt of his being the party who uttered the forged paper.

A man residing at a boarding house, No. 39 Clay street, named Samuel Trask, died very suddenly yesterday morning. It appears that he partook of breakfast as usual, and and was found dead in his bed about one o'clock. He was a Nova Scotian.

France.

The health of the Prince Imperial has greatly improved since his residence at St Cloud. His Imperial Highness takes long walks at an early hour every morning, occasionally in the park belonging to the Palace, sometimes in the wood of Boulogne, at others in the wood of Villeneuve l'Etang. On Saturday morning the Prince went out at 6 o'clock, and drove in a carriage to the Bois de Boulogne, without an escort, accompanied by his preceptor.

In Wednesday's sitting of the Legislative Body, M. Picard requested leave to address an interpellation to the Government requesting the order fixing 3 000 francs as the sum required to procute exemption from military service. M. Picard asks whether a reduction in this amount will take place, considering the new circumstances which have arisen.

The Emperor has decided that all non-commissioned officers and soldiers belonging to the continent called out in 1860, and those men who enlisted voluntarily, and whose time of service would expire on the 31st December of this year, shall be immediately allowed to return to their homes.

The Government is said to have issued orders for the cessation of the armaments which have recently been carried on.

Count de Falloux, director of the French Academy, waited upon the Emperor Napoleon in the course of last week to announce the double choice recently made by that body of MM. Jules Favre and Father Gratry. 'The Academy,' said his Majesty, 'wished to give a proof of Christian charity when it united in a single vote two men constituted so decidedly to remain separate everywhere else.' 'Sire,' replied M de Falloux, 'the Academy is the Republic of letters; it is a neutral ground where from all time the most contrary opinions have fraternised. It named the Frondeurs under Louis XIV. and the Philosophers under Louis XV.' The Emperor only answered by a smile, and gave his consent to the double election.

The bar of Paris is organising, it is said, a grand banquet in honour of M Jules Favre, on the occasion of his election to the French Academy.

There has been a spirited debate in the Corps Legislatif on a clause in the Bill for the amendment of the law on the revision of criminal trials. Under the old French monarchy the King could order a revision of a sentence at any time. But the Republicans of 1791, who instituted the jury, thought, with the absolute ideas of the time, that such a tribunal could not possibly err, and that it would be to discredit the new laws to admit that discretionary appeals necessary enough to correct the loose justice of arbitrary Governments could be required. Ever since there had been in France a sort of superstitious reverence for *la chose jugee*, or the final decision of the authorized tribunals. Repeated judicial errors, however, led to statutes granting appeals in the three cases of, first, the man supposed to be murdered turning out to be alive; second, contradictory decisions finding two persons guilty of the same crime; and, third, when a witness on whose testimony a man was condemned had been subsequently convicted of perjury in that very matter. The Government measure only proposes to extend these three exceptions to the case of the accused parties unjustly condemned being dead, so that their relatives may rehabilitate their memory. M Martel moved an amendment to the effect that the Court of Cassation might in its discretion order a revision of a criminal trial in other cases, and he instanced many, not met by the Government Bill, in which innocent men would have no remedy. This amendment was supported by MM. Emile Ollivier and Jules Favre, and rejected by only 111 to 74. The minority is unusually large.

The latest announcement of the intended visit to Paris of a crowned head is that of the Shah of Persia, Naspo-ed-din, son of Mohammed Shah, to whose throne he succeeded in 1848. He is expected in July.

The Freemasons of France are beginning to address their 'brothers of the mystic tie' of Germany. 'All masons,' the lodge called Perseverance, of Saumur, says, 'are well aware that their first duty is to defend the soil and the flag of their country. But Germany and France have no need to give proofs of their military courage; they should consolidate the fraternity of nations and close the era of conquests. There is now but one serious conquest to make—that of liberty, of self-government and of the dignity of the great human family. The lodge conjures its German brethren to join their efforts to those of French masons in the cause of peace.'

THE Richmond *Examiner* says a young man of that city was much surprised on being waked, the morning after his marriage, by his wife sitting up in the bed, flapping her arms *a la wings*, stretching out her neck and crowing repeatedly, in exact imitation of a rooster. He learned that from birth such has been her custom, that while sound asleep, at daybreak she sits up, crows and lies down again. The reason given is that previous to her birth her mother was badly frightened by the crowing of a Shanghai under her window.

THE New York *Herald* says that the New York *Tribune* has become 'the recipient of the immense advertising patronage of our Copperhead city corporation,' and that this 'plum' is worth 'fifty or sixty thousand dollars a year, at the lowest calculation.' The *Herald* alleges that the *Tribune* receives this good thing in consequence of Mr Greeley's trip to Richmond.

GOOD GOVERNMENT.—An old clergyman who had been an army chaplain, and was teaching a female seminary, in the course of conversation said: 'I have been under civil government, ecclesiastical government, military government and petticoat government, and I like petticoat government the best.'

Farnan's Specific has stood the test of years, and its beneficial influence, as well as the extraordinary rapidity with which it acts on the system and removes pain and the cause of pain—that is to say, the condition of the blood and stomach which produced the affliction—can be witnessed to by thousands. The cure is as complete as it is rapid, and, strengthened by the testimonies of a large body of patients who have received almost INSTANTANEOUS relief after all other remedies have failed, the proprietor has the utmost confidence in offering it to the notice of the public. To the constitution it is harmless; to the fluids of the human frame it adds a healthy impetus; to the system generally it is invigorating to a degree unparalleled, and both sexes may take it to equal advantage. A dose taken about once a month, operates most effectually in preventing a return of the complaint.

PROPOSED CHANGE IN THE TELEGRAPH LINE—We learn that the Western Union Telegraph Company propose to change a portion of their line from the east to the west side of Puget Sound. The proposition is to cross by cable from Seattle to Port Blakely, thence to Port Madison, thence to Port Gamble, Port Ludlow, and Port Townsend, at which latter place the Custom House for that district is located. It is well known that a telegraph line connecting these places with the general line through the Territory would accommodate a much larger population than is now accommodated by the use of the line on the east side. The cost will only be about $6000, which, if guaranteed to the Company by the citizens of these places, will be all that is necessary to have the change made We understand that Captain Meigs has offered $1000 and Port Gamble $1500. At Port Townsend the line again crosses the Sound to Whidby Island, and thence to Swinimish, where an office is now located; thence to Bellingham Bay and New Westminster. The main line from Swinimish crosses over to Victoria. The route proposed is much nearer and embraces the only business portion of the Sound. On the present route there is scarcely any settlement, and it is the most expensive line to keep up upon any given distance between Victoria and Sacramento. Near the station proposed to be established on Whidby Island is another large milling post called Utsalady. The people of the Sound ought to jump at the offer made, as its liberality is as large and inviting as could be expected, and delay in the matter might result in its withdrawal or increase of cost.

AN ADMIRALTY ORDER has been received at Chatham dockyard which has created some dissatisfaction. It directs that in future the whole of the officers of the establishment are to commence their duties at their respective departments at the same hour the workmen enter the dockyard in the morning, and are to continue at their duty during the whole of the working hours of the day. They are, under no circumstances, to leave duty during the day without having previously obtained the sanction of the Capt. Superintendent of the establishment. It is probable that some remonstrance from the officials concerned will be addressed to the Admiralty respecting the order in question.

THE accident which happened last winter at Francis, on the part of the Mediterranean line from Dijon to Besangon, may be remembered. The company has just been condemned to pay to Madame Peronne, whose husband was killed, a sum of 60,000f; and to her son 62,000f.; to Madame Kunz, the widow of the engine-driver, and her children. 20,000f.; and to the young widow of the porter of Auxonne an annuity of 600f. and a capital of 6 000f. As she is *enceinte*, the rights of her unborn child are reserved.

NEW PASS—Ex-Governor Pickering, of Washington Territory, claims to have discovered last fall a pass through the Cascade mountains much more feasible than any hitherto found. The entire distance he describes as a "flat valley" from half a mile to three miles in width. The streams flow very gently in the pass, one leading to Snoqualmie, twenty or thirty miles, the other to the Yakima, ten or twelve miles. He claims that the pass was not found by Stevens, or McClellan, or any of their assistants.

WHATEVER may be the condition of things in other branches of trade, it is pretty evident from the promptitude with which the publicans have paid their licences that they have experienced as yet no dullness. A large amount of money has been deposited for liquor licences at the police court within the past few days, and most of the landlords are kept busy in attending to the wants of the Liberty-men from Esquimalt.

THE COAST SURVEY—A correspondent in another column expresses a fear that the coast survey will be stopped in consequence of the neglect or refusal of the Colonial Government to pay £500 per annum towards the expenditure. The surveying corps, it is said, expend $20,0000 in the Colony annually. What is to be done?

THE GROUSE CREEK DIFFICULTY—There is a rumor that a force of marines will be sent to Cariboo to put down the riotous proceedings on Grouse Creek. Further advices from the "seat of war" are looked for with anxiety. The Governor is expected down today.

THE FIDELITER, we understand, has been sold to the Russian Fur Company; at any rate, she now flies the flag of the Czar at the main and the American colors at the fore.

VICTORIA RIFLE CORPS.—First Class firing, Tuesday and Friday, at 4 p. m. By order, J, GORDON VINTER, Lieut. and Adjt. *

FROM THE SOUND.—The steamer New World arrived at the early hour of 3½ o'clock yesterday afternoon. She had many passengers and a large number of sheep and cattle. The Eliza Anderson arrived at 10½ o'clock last night with a large number of passengers.

QUERY.—The editor of the *Guard*, a paper published at Eugene City, on Fourth of July many commenced his article with this heading: "Have we any Independence to celebrate?" The editor seems to be in doubt. Who can answer him?

MECHANICS' INSTITUTE.—Mr Geo. Styles, long and favorably known as one of the oldest members of the Institute, has been appointed to act as Librarian during the absence of Mr Coleman.

THE AID—This bark is now out about six months from Liverpool. Should she not arrive before the next mail comes to hand, we should then receive tidings concerning her whereabouts.

JOHN BIDWELL has been nominated for Governor of California by that section of the Union party who refuse to vote for Gorham for the same position.

MAGUIRE'S BAND PIC-NIC.—Our readers must not forget the grand pic-nic on Saturday, at Cadboro' Bay, by Maguire's Band. There will be lots of fun.

POLICE COURT—A D D. came before the magistrate yesterday and was fined 5s. for the privilege of sporting the honorary title.

THE WIRES remained down throughout yesterday. There is a kink somewhere on the islands.

THE SIAM—The Isabel will tow down this ship, which is laden with lumber for Australia, to-morrow.

FEMALE COMPLAINTS should be cured, as they surely can be, by a few doses of AYER'S SARSAPARILLA. *

THE Active will sail to-day from San Francisco for Victoria.

THE Lincoln left San Francisco for Victoria on Saturday.

Ash vs. Doune.—This action was brought to recover the sum of $250 for professional services rendered to the defendant's nephew in the years 1864 and 1865.

Mr Alston, instructed by Mr Courtney, appeared for the plaintiff; Mr Pearkes for the defendant.

The ground of action was that the defendant had requested the plaintiff to attend his nephew. The plaintiff also stated a subsequent promise to pay the amount. This was denied by the defendant, and after hearing the defendant's evidence, His Lordship gave judgment in favor of the defendant.

Jas. Bell vs. John P. Ellis.—Goods sold and delivered; judgment for $60 14.

J. D. Pemberton vs. Madame Lassalette.—Damages for loss of calf; judgment $25.

Messrs Drake & Jackson for plaintiff; Mr Courtney for defendant.

Notes from Our Correspondent.

A TRIP TO CEDAR CREEK *via* ANTLER CREEK.

There are about one hundred miners on Antler creek, doing but very little just now, in the way of money making. But as the most of the companies have done nothing so far other than making preparations to carry on their work; better times are anticipated. On

SNOW SHOE CREEK,

Twelve white men and twenty Chinamen are working here. Scott & Co, are about ready to hydraulic; the remainder of the companies are tatting out but very little gold, if any. On

KEITHLEY'S CREEK.

There are 22 white men and 16 Chinamen. Among the former about one-half is taking out more or less gold, while the other half is merely prospecting. Eleven of the Chinamen above mentioned are sawing lumber and making other preliminary prepartions to flume the bed of the creek near its mouth, where good pay is supposed to exist.

NORTH FORKS OF QUESNEL.

From the forks of Quesnel, up the north branch, there are scattered along the river, six white men and one hundred Chinamen, all making more or less.

COQUET CREEK.

Twenty celestials are mining on this creek and are reported to be doing well. This creek, which empties into South Fork lake two and a half miles below Cedar, is a good looking creek. It is a matter of regret that it should have been abandoned to Chinamen when in such hard times as we experience now, many a broken miner could have made there a nice living, while running the chance of striking something better.

CEDAR CREEK

Is, to be sure, the most promising of all the creeks I visited in my late rambles. About fifty white men are working on this creek, with more or less success. The Aurora Co had last Sunday a first dividend of 11 oz. to the interest, with every indication that their claim will continue to pay at the same rate all the season. I hardly ever saw such a lot of good boys plodding along together. The Aurora Company have their flume completed which is about 2000 feet in length to where it dumps into the lake, thirty inches and twenty inches wide on the inside, with a regular grade of four inches to every twelve feet and is laid on solid stringers resting on mud sills. The bottom is paved with blocks two feet long on an average, and three and a half inches thick. For 1750 feet it is laid in a straight line and what will appear surprising to some, stones weighing from one hundred to two hundred pounds are carried through it into the lake. Previous to the laying of the flume, they were obliged to clear off a whole forest of huge trees and underwood. They struck the bed rock in their claim, with the head of the flume, 50 feet above the lower line and have a dump at the end of it of six feet six inches above the level of the water in the lake. A few weeks ago, their flume, which was yet unfinished, got covered for ten or twelve feet deep with tailings, owing to the last freshet, which caused so much damage to William creek. Notwithstanding all the difficulties they had to contend with, this work was completed within two months. I have thus expatiated on this flume because I consider it to be the best put up work of the kind in the whole colony. It reflects the greatest credit on the energy and industry of the foreman of the company, Mr Wm Hazeltine, and of the crew who so ably seconded the exertions of their skillful captain. On striking the bed rock they got a prospect of $2 25 to a pan of dirt, and I found the company greatly elated about it when I arrived. I should think some of them were in rather too high spirits! But "honi soit qui maly pense." The other companies are for the most part taking out more or less pay. I may state that I saw on Cedar creek a most contented set of miners. None of them seemed to care about working on Sundays and when the weather is fair they go racing on the lake, which abounds with fish of a most excellent quality. A town has sprung up a few hundred feet from the lake; it contains two stores, one kept by Mr Isaac Lipset and the other by Mr Gibson; one restaurant and a butcher's shop, both kept by a son of the flowery kingdom. The boys speak very highly of him, as he gives unlimited "jaw bone" to any one who applies for it, which is saying a good deal for a Mongolian Mr Sellers is putting up the most substantial building in the camp and will be ready to open it as a hotel in a week or two.

GENERAL ASPECT OF THE COUNTRY.

South fork is probably the most beautiful sheet of water in British Columbia, extending as it does from a spur of the rocky mountains, down to within a few miles of the forks of Quesnel, being no less than from 80 to 100 miles long. Numerous creeks, which seem superficially to have all the signs of being gold bearing, find their outlets into this lake. The scenery along the lake is most beautiful, and vegetation grows there most luxuriantly. From the fact of my picking up any amount of ripe strawberries, on the first of July, at the lower end of the lake, I inferred that the temperature must be a good deal milder there than up here. It is much to be regretted that the attention of the government was not directed to this vast scope of unprospected country, when it was fitting up, at such heavy cost, the exploring parties which ended so disastrously. The result might have been very different. I do not make this remark out of any spirit of criticism, for I believe no blame can be attached to any one. All hope is not yet lost, however. Several parties are now exploring this section of country, and we may, at any moment, here some good news from that quarter. The evening before I left Cedar creek, a Spaniard and two other white men came in from a creek emptying into the lake forty-five miles above the latter. They reported having found some gold, but declined saying what quantity. They were to return after having bought some supplies. Had the same amount of capital and labor been expended on the other side of Bald Mountain, as has been on this I have no doubt that good diggings would have been struck. Cedar creek has been known since '58 or '59, and still no great amount of prospecting had been done there till last summer. How many such creeks there are in that section of country, ultimate prospects and time alone will tell.

CAPTAIN MITCHELL.

Is still on his feet, doing the piloting on the lake at a very reduced price. If the trails he has opened through the wilds have done him more harm than good thus far, they prove at least to be of great benefit to the people on Coquet and Cedar creeks, and to prospectors generally in that portion of the country. Captain Mitchell deserves to succeed in his undertaking, and no one wishes it more heartily than myself.

MOSQUITOES.

I would respectfully advise parties going to take their chances at prospecting, not to start without being well provided to contend with this most formidable, though small foe, with which the atmosphere is swarming this season.

PRICE OF PROVISIONS ON CEDAR CREEK.

Flour 25 cents per lb; bacon 75 do.; butter, (fresh), $1 25 do.; beef from 30 to 35c. per lb. No clothing of any kind.

SUPREME COURT,

(Before Hon. Mr. Justice Begbie.

WEDNESDAY, July 3rd, 1867.

The court met at 10 o'clock. All the criminal cases having been disposed of, His Honor discharged the petty jury and proceeded to the hearing of appeals. The first in the list was the

Canadian Co vs. Grouse Co—The decision in this case by the Gold Commissioner was appealed by defendants. Mr A R Robertson for appellants, Messrs Barnston and Park for respondents. His Honor after hearing the arguments of counsel on both sides and referring to the 17th clause of Part 1 of the Gold Fields Ordinance, '67, found that he had no jurisdiction in the case, as that Act constituted the Mining Court a Court of Record and declared every decision in that court upon all matters of fact to be final. The record of the court below was in these words: 'Judgment for plaintiffs on the ground of priority of record, and having held and worked the ground since the date of record,' which was clearly a decision on matters of fact with which the Supreme Court had no power to interfere. His Honor continued the case till to-morrow so as to enable him to examine the act.

William Creek Bed Rock Flume Co vs. H P Synon—Appealed by defendant. Messrs Walker and Robertson for appellant, Mr Walkem for respondents. The case was argued at considerable length on both sides, but as the same difficulty occurred as in the preceding case His Honor took the matter under consideration until to-morrow.

THURSDAY, July 4th, 1867.

Canadian Co vs. Grouse Co—His Honor said that on carefully perusing the Act, he felt convinced he had no power to interfere with the decision of the court below. He would therefore decline to make any order in the case or to allow costs;

William Creek Bed Rock Flume Co vs. H P Synon—His Honor made the same ruling in this as in the preceding case, awarding costs to neither party as the Act made no provision for this.

Mr Walkem—Acts do not generally provide for costs.

Judge—Acts do not generally give companies other men's lands, Mr Walkem.

Grouse Creek Flume Co vs. Canadian Co—Appealed by defendants. Messrs Barnston and Park for appellants, and Messrs Walker and Walkem for respondents. This case was disposed of as the preceding cases were, no order being made as to costs.

Grouse Creek Flume Co vs. Blawk Hawk Co—Appealed by plaintiffs. Messrs Walker and Walkem for appellants, Mr. Park for respondents. Decision as in above cases.

ABOUT THE RATIO.—During a late fair at Richmond, a valuable article was put up for a prize at one dollar a share, and comprising one hundred shares. A gentleman wishing to possess the prize and deeming it worth the sum required, offered to take all the shares not already sold. Only one had been taken, and he therefore took the remaining ninety-nine. Sanguine that the prize must fall to him, great was his astonishment to find, when the drawing was over, that the number he had missed was the lucky one, and that he was just ninety-nine dollars out of pocket.

THE PEOPLE'S FRIEND.

PERRY DAVIS'

VEGETABLE PAIN KILLER.

The Greatest Family Medicine of the age

Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painter's colic Asiatic cholera, diarrhœa and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. IT IS A SURE REMEDY FOR AGUE AND CHILLS AND FEVER.

Follow Disease to its Sources.—To disease cannot be cured merely by local treatment. For example: No application to the part affected will radically cure the pile. The habit of body, which is the primary cause of the complaint, must be changed. For this purpose, **Bristol's Sugar-coted Pills**, the finest vegetable alterative ever compounded, is the medicine to be used. Costiveness is almost invariably the immediate cause of this distressing disorder. This condition of the bowels is at once changed by the action of the Pills. Indigestion and morbid action of the liver produce constipation. These, too, are swiftly remedied by this powerful vegetable agent, and the organs toned and regulated to a condition of perfect health. Thus are the symptoms and source of the disease removed together, and it is at an end forever. It is the same with all the complaints which come within the remedial scope of this great cathartic, and antibilious medicine. They are put up in glass vials, and will keep in any climate. In cases arising from, or aggravated by impure blood, BRISTOL'S SARSAPARILLA should be used in connection with the Pills. 414

A New and Grand Epoch in Medicine.—DR. MAGGELL is the founder of a new Medical system The quackeries, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so. His wonderful and all healing Salve. These two great specifics of the Doctor There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggie's Salve. In fact, it is here announced that **Maggell's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns Scalds, Chilblains, Cuts, and all abrasions of the skin **Maggell's Salve** is infallible. Sold by J. MAGGELL, 1 Pine street, New York, and all Druggists, at 25 cents per box.

An Aristocratic Perfume.—Bulwer Lytton, the great English romancist, says that a gentleman is known by the perfume he uses. The coarse scent marks the coarse man. There is a delicacy, an insinuating and luxurious softness in the aroma of **Murray and Lanman's Florida Water**, which is delightful to persons of taste and refinement. Hence it is as acceptable to the true gentleman as to the lady of fine sensibilities. More than that: Every gentleman knows or should know, that when sufficiently diluted with water it is a wonderful emollient—the best that can possibly be used after shaving. Its refreshing odor is an exquisite contrast to the sickly taint of the heavy French extracts. ☞ Purchasers are requested to see that the words "FLORIDA WATER, MURRAY AND LANMAN, No. 69 Water street, New York," are stamped in the glass on each bottle. Without this none is genuine. 5

A Household Word to Millions.—Throughout two-thirds of the civilized world, **Bristol's Sarsaparilla** may be called the synonym for invigoration. Its tonic properties are proverbial in every South American country; in Mexico, Cuba, Central America, Brazil, and all the British Colonies from the Canadas to the Australian antipodes, the evidence is alike in its favor. Convalescents find it the most powerful of restoratives. The victims of ulcerous and eruptive maladies depend upon its disinfectant and healing properties. The dyspeptic, the bilious, the sufferers from malarious fevers, intermittent and remittent, find it safe and sure. It has never disappointed those who have put their trust in it. In all diseases of the stomach, liver, and bowels, **Bristol's Vegetable Pills** should be used in moderate doses along with the Sarsaparilla, which will greatly hasten a cure. 515

HOLLOWAY'S OINTMENT.—Agonizing Pains.—It is gratifying to hear sufferers recount the ease they derived when first they applied this Ointment to their ulcers, sores or abscesses, with which they had been afflicted for years. Soon after its application to a bad leg or inflammatory mass, it restrains the excitement of blood-vessels and nerves, which at once brings coolness and comfort and furthers the gradual deposits of healthy materials to fill up the ravages caused by violence, debility or disease. It expels all noxious matters, and heals all sores soundly. It gives ease to varicose veins, bad legs, and swellings of the feet and joints, when the agony is almost unremitting and the pain too much for a giant's strength.

☞ **The best Remedy for Purifying the Blood** strengthening the Nerves, Restoring the Lost Appetit

It is the best preservative against almost any sickness, used timely. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. TRY IT!

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged.

Dr Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

GENTLEMEN:—"I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment It soon effected a permanent cure."

J. L. DOWNING.

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Linement as a valuable and indispensible article for Sprains, Soars, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT

Foreman for American, Wells Fargos and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED SEELY

Gloucester, Mass. August 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of G. Wm. Westbrook, Chemist, and the private U. S. stamp Demas Barnes & Co. over the cop.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon permaturely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lesson inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spo

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

REFINING WORKS.

CAPITAL STOCK, - - - - $1,000,060.

Directors:

JOHN PARROTT, CHAS. E. McLANE,
WM. C. RALSTON, A. HAYWARD,
LOUIS A. GARNETT.

LOUIS A GARNETT.......................President and Manager
JOHN HEWSTON, JR..............Chemist and Superintendent

THIS COMPANY HAVING GREATLY ENlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

or Assaying Deposits for Unparted Gold Bars.

One-eighth of one per cent (heretofore a quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300¼@600 parts gold, 4 cents per ounce.
On bullion from 600¼@750 parts gold, 6 cents per ounce.
On bullion from 750¼@949¼ parts gold, 8 cents per ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin made in Forty-eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:

For refining bullion under 300 parts gold, 3 cents per ounce.
For refining bullion from 300¼@600 parts gold, 5 cents per ounce.
For refining bullion from 600¼@750 parts gold, 7 cents per ounce.
For refining bullion from 750¼@850 parts gold, 11 cents per ounce.
For refining bullion from 850¼@919¼ parts gold, 14 cents per ounce.

The charge for coinage is one-half of one per cent, and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ⅛ of one per cent—they must be sold at the following par rates to equal the return which would have been made had they been posited for coinage:

830 par to equal Mint return, at refining charge of 14 cents.
845 par to equal Mint return, at refining charge of 11 cents.
at 865 par to equal San Francisco A. & R. Works return refining charge of 8 cents. m18, 2p3m

GENTLEMEN:—"I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment It soon effected a permanent cure."

J. L. DOWNING.

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Linement as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT.

Foreman for American, Wells Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED SEELY

Gloucester, Mass. August 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp Demas Barnes & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Flea Powder

Lyon's Magnetic Insect Powder is instant death to Fleas, Ticks, Roaches, and everything of the insect species. It is one of the few articles that can be relied upon, and for a mere two bits we can save the bites and bills of these little pests. None is genuine unless signed by E. Lyon, and bearing the private stamp of Demas Barnes & Co., New York.

Lyon's Extract Ginger.

Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere, at 50 cts. per bottle. Ask for "Lyon's Pure Extract. Take no other.
